Declaration on the REACH regulation (EG No. 1907/2006)

Ladies and Gentlemen,

Bock 1 GmbH & Co. KG, as a manufacturer of plastic injection-moulded and aluminum die-cast parts, is a "downstream user" within the meaning of the REACH regulation. Pre-registration and registration (ECHA) obligations arising from the manufacture and placing on the market of substances/chemicals do not apply to us.

Our products are articles and therefore cannot be defined as substances or preparations. In addition, no substance is released from our products under normal and foreseeable conditions of use. Thus, Bock 1 GmbH & Co. KG is neither subject to registration or the obligation to create safety data sheets.

In addition, the items purchased from BOCK, and in particular the flame-retardant flexible foams, to our knowledge and based on the information from our suppliers, currently do not contain any substances above 0.1% by mass that are in the so-called "candidate list" in accordance with Article 59 (1, 10) of Regulation (EC) No. 1907/2006 ("REACH").

In order to secure the supply chain and in the interests of maximum product safety, we also demand and monitor the implementation of REACH on the part of our suppliers. The assurance of REACH conformity is part of our supplier qualification.

Kind regards

i.V. Jürgen Fackler
Head of Purchasing

i.A. Martin Reitlinger
Quality- and Environmental Management
